

An HCL Technologies Product

MODERN CAD VIEWER FOR MULTI CAD ENVIRONMENTS

View 3D CAD files without a CAD license. Save on license costs

Analyze designs faster with purpose built tools

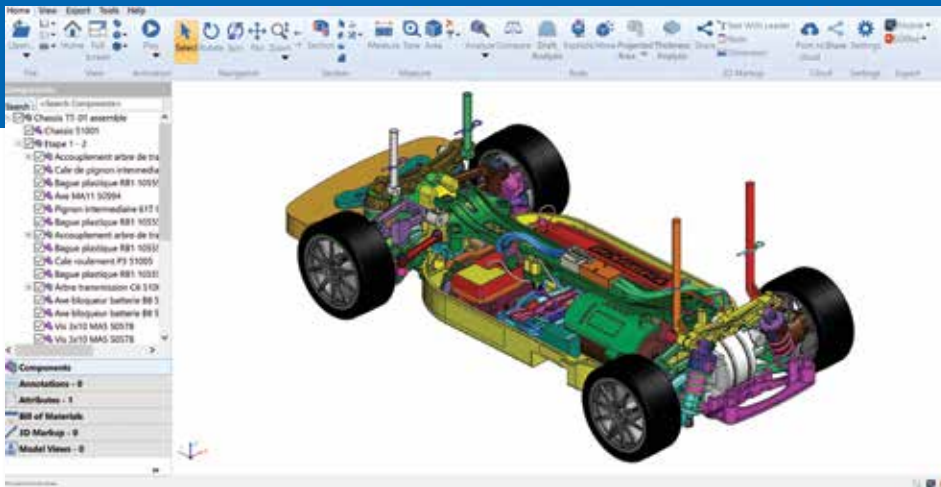

Simple and easy to use. No training required

Go Mobile. View, share, and collaborate on the go

Glovius is a modern CAD Viewer for popular CAD file formats. Open CATIA, NX, Creo, Pro/ENGINEER, SOLIDWORKS®, Inventor, Solid Edge, STEP, IGES, and JT files at a fraction of a CAD license cost.

Available in subscription, permanent and team licenses. Available in English, German, French, Japanese, Spanish, Portuguese, Chinese and Korean languages.

www.glovius.com

Available on

View & Navigate designs

- ▶ View 3D data, Product Structure, Attributes, PMI, GD&T, and Captures.
- ▶ Zoom, Pan, Rotate & Spin models.
- ▶ Standard Views. Previous & Next View.
- ▶ Hide/Show, Isolate, Move & Search components. Change component color and transparency.

Analyze Designs

- ▶ Analyze component attributes like Extent dimensions, billet volume, component mass, surface area and volume
- ▶ Compare design revisions to find differences in geometry and assembly structure.

Measure

- ▶ Take accurate linear, angular and radial measurements.
- ▶ Use Tape Measure for edges and curves.
- ▶ Calculate Surface area.

Casting & Plastics

- ▶ Thickness tool analyzes material distribution (thick & thin regions) in parts.
- ▶ Projected Area tool calculates part area on a particular plane. Perform Draft analysis on parts

Section

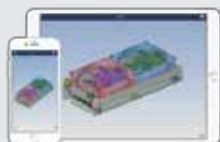

- ▶ Cut dynamic sections along Standard or Custom Planes.
- ▶ Create multiple sections, add hatches to enhance visibility and measure section profiles.

Export

- ▶ Export your designs to 3D PDF, STL, Image and Powerpoint
- ▶ Generate Bill of Materials (BoM) report in PDF or CSV
- ▶ Generate 3D report with geometry, BoM and attributes

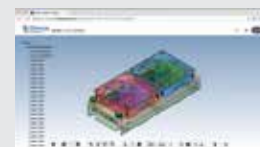

Glovius Mobile

View, share, and collaborate on the go with free iOS and Android Apps

Glovius Cloud

View 3D models in your browser, no installation required. Glovius cloud account offers access to 3D data across devices.

Hello, I'm from HCL's Engineering and R&D Services. We enable technology led organizations to go to market with innovative products and solutions. We partner with our customers in building world class products and creating associated solution deliver ecosystems to help bring market leadership. We develop engineering products, solutions and platforms across Networking & Telecom, Aerospace and Defense, Automotive, Consumer Electronics, Software, Online, Industrial Manufacturing, Medical Devices, Office Automation, Semiconductor and Servers & Storage for our customers.
